**Re: CUP14-00003 and CVA14-00004 Transit Center and Mixed Use Development at
101 South Capitol Boulevard**

The Idaho Transportation Department (ITD) has reviewed the referenced conditional use and variance applications for the mixed-use development and underground transit center on the southeast corner of 8th and Main Street in Boise, Idaho. ITD has the following comments:

1. ITD has no objection to this application and requires no mitigation. The project does not require access to the State Highway System.
2. Boise City is reminded that any additional development results in additional vehicle trips. The roadway system has limited capacity. Any additional vehicle trips increase congestion and travel delay.

If you have any questions, you may contact Shona Tonkin at 334.8341 or me at 334.8377.

Sincerely,

A handwritten signature in blue ink that reads 'Dave Szplett'. The signature is fluid and cursive, with the first and last names being clearly legible.
