Re: Design Review Application; New Buildings, DRH14-00089
101 S. Capitol Boulevard

Dear Sarah,

This is a design review application to construct a new multi-story commercial building, transit facility and expanded convention center.

The Boise Fire Department has reviewed and can approve the application subject to compliance with all of the following code requirements and conditions of approval. Any deviation from this plan is subject to Fire Department approval. Please note that unless stated otherwise, this memo represents the requirements of the International Fire Code (IFC) as adopted and amended by Ordinance 6308.

Comments:

1. A full building and fire code review shall be required. The pedestrian way from Capitol Boulevard to the Plaza and the western exterior wall projections will need to be reviewed with further information.

General Requirement:

Specific building construction requirements of the International Building Code, International Fire Code and Boise City Code will apply. However, these provisions are best addressed by a licensed Architect at building permit application.

Regards,

Romeo P. Gervais, P.E.
Deputy Chief – Fire Marshal
Boise Fire Department
