**HAND DELIVERED**

May 7, 2014

**Subject: DRH14-00089 / KC Gardner Riverwoods LLC**

Dear Committee Members:

I am writing this letter in strong support of Design Review approval of the above identified Application, in particular as regards the VRT multimodal transit facility.

The VRT multimodal transit facility has taken many years of hard work and numerous failures to get off the ground. Finally a land owner and developer has emerged with a plan which has a functional layout, at an excellent location, and strong community support for success. This multimodal center for Boise is crucial for the long term health of our transit system.

I urge you to approve this Application. I have spoken with dozens of downtown business owners and developers. All are 100% supportive of this effort. The only entity I am aware of which does not support this effort is the Basque Museum. Frankly, I don't know what this has to do with them. They have one of the most distinct and recognizable locations in the city of Boise. Having this transit center nearby will only increase visitation to their property.

Thank you for your consideration,

  
Clayton Carley
