

Interoffice

MEMORANDUM

DATE: May 5, 2014

TO: Boise Planning & Development

FROM: Ryan Rodgers, Forestry Specialist
Boise Parks & Recreation Department

SUBJ: CUP14-00015 1173 University Dr.

Required Actions reflect provisions of Boise City Code Title 9, Chapter 16 (Boise Tree Ordinance). Questions relating to these required actions should be directed to this office at (208) 608-7704.

Existing Trees on public right of way:

4 - Linden Trees, 8" - 12" DBH, good condition
2 - Norway Maple Trees 5" & 9" DBH, good condition

Required Actions:

Retain and protect existing trees during construction:

- Construct protective fencing around the critical root zone of the tree prior to construction (critical root zone is defined as directly below the dripline or edge of canopy).
- Do not stockpile materials, debris or dirt within the tree protection area.
- Maintain watering within the critical root zone from mid-April to mid-October at the rate of the equivalent of 1 – 2 inches of water over the entire area per week.
- Operate equipment in such a way as to avoid contact with tree trunks and branches.
- Pruning of trees on the public right of way must be done by a Boise City licensed tree service.
