---

Dear Sir:

I have owned a property off South Cole for ten years and have been distressed by the lack of improvements to Cole Road both from the safety of driving and for the safety of our neighborhood children. Other than the stop light at Amity, there is no traffic controls to accommodate merging traffic from the arterial system or for the safety of our neighborhood children catching school buses and crossing the road in order to do so.

Morning traffic is beyond tolerable levels and the intention of adding 2000 or so homes before this situation is addressed is harmful to our safety and the quality of life of current residents. There needs to be better coordination between the City of Boise, ACHD, and Ada County as further development of South Cole and Lake Hazel areas takes place in order to improve quality of life for those of us living here.

Sincerely,

Elissa Maguire  
7967 W. Tillamook Dr.
