Boise, ID 83701**

RE: CUP11-00103 & CVA11-00056

Attention: Planning and Zoning Commissioners:

The East End Neighborhood Association Board of Directors has met and has thoroughly discussed the above CUP11-00103 & CVA11-00056 and would like to submit their support to the project proposed.

We believe the developer has given thought to the location and how the project will fit into the City's recommendations for more mixed use building. In addition we feel that the height and parking issues have been taken into consideration for adjacent residents.

We submit this letter to encourage the Planning and Zoning Commission to consider approval. The East End Neighborhood Association looks forward to working with the City and the Developer through the completion of the project.
