Re: Annexation/Rezone Application; CAR14-00014
9889 W. Hill Road

Dear Scott,

This is a request to annex 557 acres of land in the area of 9889 W. Hill Road, roughly bounded by State Street to the South, Horseshoe Bend Road to the West, Hill Road Parkway to the North and existing Boise City limits on the East.

The annexation area in question is currently served by both the North Ada County Fire Protection District and the Eagle Fire Protection District. Upon annexation it will be served by the Boise City Fire Department (BFD).

All areas within the City of Boise should be within 1½ miles or 4 minutes of a fire station. Portions of the proposed annexation area will not meet the proposed distance and travel times. Fire Station 13, currently proposed on Pierce Park Road, will also respond to this area when constructed.

Regards,

Romeo P. Gervais, P.E.
Deputy Chief – Fire Marshal
Boise Fire Department
