

Petition to Refuse Annexation into Boise City

This petition expresses the desire of the people, residents, property owners and renters of the 606 acres generally located between Boise city limits and Horseshoe Bend Road and between State Street and Hill Road, to NOT be annexed into the city of Boise. This annexation has not been requested.

We see no benefit to us by being annexed into the city. We feel safe and are content with the services and amenities and freedoms we currently enjoy. As per your annexation plan fire, sewer, and library services would remain the same.

We feel we would be giving up far more freedoms in being annexed than anything that the city has to offer us. The greatest of all, the increase in property taxes. Many of the residents have been here for years, some are on fixed incomes and or disabled and fear they may no longer be able to afford remaining in their homes if this annexation takes place. Also, many of us have livestock which is a right that would be taken away if our parcel is less than one acre. We enjoy the freedom now to have livestock and enjoy the "rural feel" here.

As we see it, this annexation would offer no benefit to us but seems to benefit only Boise city and those whose appointment we have had no say in.

Thank you for your consideration in the concerns of the people of this said area. We, the undersigned, are concerned citizens who wish to have our voices heard and not be forced into this annexation.

Petition to Refuse Annexation into Boise City

This petition expresses the desire of the people, residents, property owners and renters of the 606 acres generally located between Boise city limits and Horseshoe Bend Road and between State Street and Hill Road, to NOT be annexed into the city of Boise. This annexation has not been requested.

We see no benefit to us by being annexed into the city. We feel safe and are content with the services and amenities and freedoms we currently enjoy. As per your annexation plan fire, sewer, and library services would remain the same.

We feel we would be giving up far more freedoms in being annexed than anything that the city has to offer us. The greatest of all, the increase in property taxes. Many of the residents have been here for years, some are on fixed incomes and or disabled and fear they may no longer be able to afford remaining in their homes if this annexation takes place. Also, many of us have livestock which is a right that would be taken away if our parcel is less than one acre. We enjoy the freedom now to have livestock and enjoy the "rural feel" here.

As we see it, this annexation would offer no benefit to us but seems to benefit only Boise city and those whose appointment we have had no say in.

Thank you for your consideration in the concerns of the people of this said area. We, the undersigned, are concerned citizens who wish to have our voices heard and not be forced into this annexation.
