DEVELOPMENT
SERVICES

Dear Planning & Development Services:

Nampa & Meridian Irrigation District (NMID) has received the Legal Notice of Public Hearing on Annexation, which is to be held on September 21, 2015 at 6:00 P.M. regarding file number **CAR15-00026**.

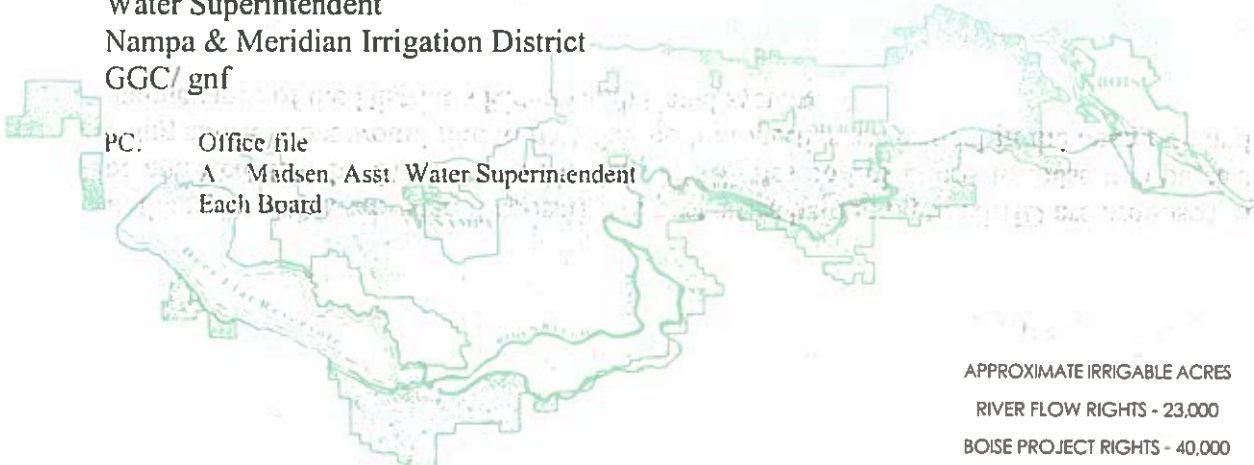

In the information provided it appears two properties belonging to NMID are proposed to be annexed into the City of Boise limits. NMID has no objections to these two parcels being annexed but would like to note that both properties are critical in the operation and maintenance of the District's Ridenbaugh Canal system.

Parcel number S0929325620 is the District's head works to the Ridenbaugh Canal off the Boise River and parcel S0929325609 is a borrow area where materials for the maintenance of the canal system have been historically stored. Any new restrictions or requirements on either property would be unacceptable to the District. If further discussions on this subject are warranted I would be more than happy for a meeting on this subject.

Sincerely,

Greg G. Curtis
Water Superintendent
