

BOISE AIRPORT

MAYOR: David H. Bieter | DIRECTOR: Rebecca Hupp, A.A.E.

MEMO

TO: Boise City Planning and Development Services
FROM: Matt Petaja, Deputy Director, Engineering and Facilities
DATE: 4/26/2018
RE: Moxie Ridge

Boise Airport staff has no objections to the project as proposed.

This project is located within the airport influence area A, which is affected by average sound levels in the 60-65 DNL, and/or aircraft traffic patterns below 1000 feet.

Boise Airport does have an aviation easement on this property.

New residential development and new schools located within the overlay area are required to meet the sound attenuation standards of a minimum noise level reduction (NLR) of 25db.
